

SOLUTION BASINS

Designed for use in multichannel pipetting applications, these disposable reservoirs accommodate all types of pipettors up to 12-channel width. They feature a trough design, graduation marks on interior walls, and pour-off spouts on each corner. All reservoirs are lot-certified, nonpyrogenic, and DNase- and RNase-free. The 25 ml reservoirs are also available in a unique divided format that features three distinct mini reservoir chambers, each with a 5 ml capacity. The 50 ml reservoirs are available in clear FDA grade PVC or virgin modified polystyrene. All other sizes are manufactured from virgin modified polystyrene. Available non-sterile or electron beam sterilized.
