

## Sterilin Weighing Boats – Improvements to the Range

**Sterilin have made changes to their weighing boat range to improve performance.**

The changes to this range are as follows;

- ✓ The square weighing boats will have radiused rather than the current mitred pouring corners. This will help with the pouring of contents and complete sample release.
- ✓ Both the diamond and square weighing boats will have a smoother improved edge profile for ease and comfort of handling.
- ✓ The case quantity will be 500 pieces for all products with an inner pack quantity of 250 boats.

The new product will be accompanied by a product code change as detailed in the table below, and, most importantly, the pricing will only change pro-rata, so that you will continue to pay the same price for this new improved product.

New Code	Previous Code	Description	Current Case Qty	New Case Qty	2011 List Price
WB30205	30205	7ml Square Weighboat, White	1000	500	25.32
